

## LONG SERVICE OF W. C. ROE

Has Been With the Honolulu Iron Works a Quarter of a Century.

W. C. Roe of the Honolulu Iron Works.

W. C. Roe, chief machinist for the Honolulu Iron Works, will on next Wednesday celebrate the twenty-fifth anniversary of his long service with the Works. His service has been continuous for the quarter of a century, and he figures also that he has in that period put in about six years of overtime.

## ANXIOUS FOR A COUNTRY HOME

The "Life Problem Club" of the Y. M. C. A. had a good beginning last week owing to the presence of W. A. Bowen, who appeared before the members with a paper prepared on the subject for the evening—"The Choice of a Life Work." The subject was discussed informally by fourteen of the men present. Rev. E. S. Muckley was chosen as permanent chairman and he appointed Messrs. Rittenhouse, Duncan and Day to co-operate with the secretaries and chairman in the control of the club.

The meetings held Thursday evenings from 6:30 to 7:30 are free. Some are compelled to leave at seven to attend the bookkeeping class which is now going ahead steadily. To make it possible for more to come a hearty dinner will be served for twenty-five cents to all who leave a standing order or who send in their order before 9 a. m. Thursday morning. Last week ten men took advantage of this opportunity and many more are expected this week. The large hall instead of the class room will be used tomorrow, when F. J. Lowrey will open up the subject of Christian Ideals of Business; "Do Modern Business Conditions Prevent a man from Living a Christian Life?" This is expected to be an interesting subject for young business men to discuss. The other subjects for the month are "Relations Between Employer and Employee from a Christian Standpoint," introduced by A. B. Wood, and "Character as a Business Asset; Correct Ideas of Honor in Professional and Business Relations," opened by E. Tenney Peck.

The problem of a Y. M. C. A. country house would be settled in very short order if the finances of the Honolulu givers were in ordinary good order, for several generous offers of land have already been made. Perhaps the most generous one is Edgar Wood's offer of two acres in Wahiawa, not far from the store and on the edge of a gulch already containing a swimming pool which will, when Waiakua builds its dam, be transformed into a fine lake for boating. The only condition attached to this gift is that the Young Men's Christian Association and the Young Women's Christian Association build on the land before another season. All houses in that section must have not less than \$300 worth of building material in their makeup, but the Associations have many friends in the colony who would assist in carting the lumber and perhaps assist in the erection of the buildings. The idea meets with favor among the Y. W. C. A. directors, and it will with the men if only there are a few \$25, 50 and \$100 contributions to assure it.
